

OUR MISSION

At Curos, we care about developing well-rounded children. Our mission is to grow every child holistically, so they are equipped for school and life.

OUR PROMISE

We combine academic rigour, holistic learning, and quality student care so that your child receives an enriching after-school experience.

OUR PROGRAMMES

Our academic programmes are delivered by two of Singapore's premium enrichment providers, Learning Point and Hua Cheng, so your child receives excellent teaching across English, Chinese, Maths and Science.

Using McKinsey-researched pedagogy, we integrate this academic learning with fun and enriching programmes (STEM, Digital literacy, Public-speaking etc.) that prepare your child to be future ready.

WHY US

THE 6-POINT CUROS DIFFERENCE

1 OUTSTANDING TEACHING

Our teachers have years of teaching experience at Learning Point and Hua Cheng – Singapore's premium enrichment providers.

We ensure low student-teacher ratios, allowing teachers to pay better attention to each child.

2 ESTABLISHED PROGRAMMES

Excel in English, Math, and Science with Learning Point's established Primary Excellence Programmes.

Love Chinese with Hua Cheng's decades-tested Chinese language excellence programmes.

Holistically, McKinsey-researched interdisciplinary programmes give your child knowledge beyond the textbook.

3 ROBUST PARENT-TEACHER PARTNERSHIP

We love having open and regular conversations about your child. This includes sharing lesson summaries and your child's progress with you too.

You'll be better empowered to support your child, and it's rewarding for us too.

4 PREMIUM STUDENT CARE

Get guided recreation and rest time with our student-care teachers. Plus, your child will love mealtimes with our nutritionist-planned daily meals.

We "eat the rainbow", including colours like tomatoes, greens, milk, fruits, and more.

5 POINT-TO-POINT TRANSPORT

We provide point-to-point transport for your child from Curos back home, so you don't need to beat traffic or rearrange your workday to pick up your child.

6 STUDENT-CENTRIC ENVIRONMENT

Stress-free and conducive - that's the environment we know kids need.

Our centres have an uncluttered design, and with appropriate visual and audio stimulation too. This helps your child be calm, comfortable, and focused - so they can learn better.
